SUBJECT INDEX TO VOLUME 74, 1995

Explanation of Symbols:

The page number on which an article begins is listed at the end of that article's title. An article may appear under more than one heading.

Author names are listed alphabetically. Numbers listed after each name are the page numbers of the article(s) on which their name appears.

Page numbers followed by * represent presentations at the Symposium on "Critical Issues in Dental Clinical Research."

AADR (see IADR/AADR)

ABRASION (see Tooth Abrasion)

ABSTRACTS

AADR Abstracts, 12-292
Divisional abstracts, 728-1024, 1337
IADR Abstracts, 401-624

ACCESSORY CELLS, IMMUNOLOGIC (see Antigen-Presenting Cells)

ACETYLGALACTOSAMINE

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

ACID ETCHING, DENTAL

Effects of treatment and storage conditions on ceramic/composite bond strength. Roulet, J.F., *et al.*, 381

Mineral distribution and dimensional changes in human dentin during demineralization. Kinney, J.H., *et al.*, 1179

Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

ACID PHOSPHATE

Reversible structural changes of octacalcium phosphate and labile acid phosphate. Suzuki, O., *et al.*, 1764

ACIDS

Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618

Effect of sucrose monolaurate on acid production, levels of glycolytic intermediates, and enzyme activities on *Streptococcus mutans* NCTC 10449. Iwami, Y., *et al.*, 1613

ACRYLATES

Preparation and characterization of cyclopolymerizable resin formulations. Stansbury, J.W., *et al.*, 1110

ACRYLIC RESINS (see Resins)

ACTIN-BINDING PROTEINS (see Microfilament Proteins)

ACTINOBACILLUS ACTINOMYCETEMCOMITANS

Antigen specificity of serum antibody in *A. actinomycetemcomitans*-infected periodontitis patients. Ebersole, J.L., *et al.*, 658

Differential expression of IL-1α, TNF-∞, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789

Simultaneous detection of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by a rapid PCR method. Wahlfors, J., *et al.*, 1796

ACTINOMYCES

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

ACTION POTENTIALS

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

ADENOSINE TRIPHOSPHATE

Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular gland cells. Fleming, N. and Mellow, L., 1295

ADENYLYL CYCLASE

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

ADHESIVES

Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

ADJUVANTS, IMMUNOLOGIC

Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

AFRICAN AMERICANS (see Blacks)

AGE FACTORS

Contributions of facial morphology, age, and gender to EMG activity under biting and resting conditions: a canonical correlation analysis. Fogle, L.L. and Glaros, A.G., 1496

Site-specificity of supragingival calculus deposition on the lingual surfaces of the six permanent lower anterior teeth in humans and the effects of age, sex, gum-chewing habits, and the time since the last prophylaxis on calculus scores, The. Macpherson, L.M.D., *et al.*, 1715

AGED

Three-year tooth loss among black and white older adults in North Carolina. Drake, C.W., *et al.*, 675

AGGLUTININS

Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040

AGING

Effect of aging on animal response to chronic fluoride exposure. Dunipace, A.J., *et al.*, 358

Fluoride reduces bone strength in older rats. Turner, C.H., *et al.*, 1475

Guest editorial: aging—a global issue, 724

ALCOHOL, ETHYL

Fracture toughness of experimental dental composites aged in ethanol. Ferracane, J.L. and Berge, H.X., 1418

ALKALINE PHOSPHATASE

Alkaline phosphatase activity in the periodontal ligament and gingiva of the rat molar: its relation to cementum formation. Groeneveld, M.C., *et al.*, 1374

Bovine enamel organ cells express tissue non-specific alkaline phosphatase mRNA. Yuan, Z.A., *et al.*, 1886

Identification of bone-type alkaline phosphatase mRNA from human periodontal ligament cells. Goseki, M., *et al.*, 319

ALLOYS, DENTAL (see Dental Alloys)

ALTERNATIVE SPLICING

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

ALVEOLAR BONE LOSS

Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

AMELOBLASTS

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

AMELOGENESIS

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698

AMINO ACID SEQUENCE

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

AMINO ACIDS

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686

AMYLASES

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*.

ALTERNATIVE SPLICING

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

ALVEOLAR BONE LOSS

Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

AMELOBLASTS

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

AMELOGENESIS

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698

AMINO ACID SEQUENCE

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

AMINO ACIDS

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686

AMYLASES

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*.

Rudney, J.D., *et al.*, 1280
Salivary amylase promotes adhesion of oral streptococci to hydroxyapatite. Scannapieco, F.A., *et al.*, 1360

ANTIBODIES

Antigen specificity of serum antibody in *A. actinomycetemcomitans*-infected periodontitis patients. Ebersole, J.L., *et al.*, 658

ANTIBODIES, MONOCLONAL

Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040

ANTIGEN-PRESENTING CELLS

Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162

ANTIGENS

Antigen specificity of serum antibody in *A. actinomycetemcomitans*-infected periodontitis patients. Ebersole, J.L., *et al.*, 658
Development and histologic characterization of an animal model of antigen-induced arthritis of the juvenile rabbit temporomandibular joint. Kapila, S., *et al.*, 1870

ANTISENSE ELEMENTS (GENETICS)

Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

ANXIETY (*see* Dental Anxiety)

APOPTOSIS

Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

ARACHIDONIC ACID

Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular gland cells. Fleming, N. and Mellow, L., 1295

ARGININE

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686
Evidence for the role of nitric oxide in the circulation of the dental pulp. Lohinai, Z., *et al.*, 1501

ARNIM, SUMTER SMITH

Sumter Smith Arnim, DDS, PhD (1904-1990): a pioneer in preventive dentistry. Christen, A.G., 1630

ARTHRITIS, JUVENILE RHEUMATOID

Development and histologic characterization of an animal model of antigen-induced arthritis of the juvenile rabbit temporomandibular joint. Kapila, S., *et al.*, 1870

ATP (*see* Adenosine Triphosphate)

AUTACOIDS

Salivary PAF levels correlate with the severity of periodontal inflammation. Garito, M.L., *et al.*, 1048

AUTHORSHIP

Guest editorial: real writers *vs.* listed authors: an ethical problem. Lazar, R., 1244

AXONS

Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310

BACK-SCATTERED ELECTRON IMAGES (*see* Image Processing, Computer-Assisted)

BACTERIA

Binding of human high-molecular-weight salivary mucins (MG1) to *Hemophilus parainfluenzae*. Veerman, E.C.I., *et al.*, 351
Dental caries is a transmissible infectious disease: the Keyes and Fitzgerald revolution. Tanzer, J.M., 1536
Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789
Simultaneous detection of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by a rapid PCR method. Wahlfors, J., *et al.*, 1796

BACTERIAL ADHESION

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607
Quantifying the strength of bacterial adhesive interactions with salivary glycoproteins. Prakobphol, A., *et al.*, 1212
Salivary amylase promotes adhesion of oral streptococci to hydroxyapatite. Scannapieco, F.A., *et al.*, 1360
Specific and charge interactions mediate collagen recognition by oral lactobacilli. McGrady, J.A., *et al.*, 649

BACTERIAL INFECTIONS

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459
Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

BASEMENT MEMBRANE

Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

BEHAVIOR

Prevalence of dental anxiety in children from low-income families and its relationship to personality traits, The. Raadal, M., *et al.*, 1439

BIGLYCAN

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

BIOLOGICAL RESPONSE MODIFIERS

Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

BIOMECHANICS

Biomechanical analysis of jaw-closing movements. Koolstra, J.H. and van Eijden, T.M.G.J., 1564

BIOTECHNOLOGY

Guest editorial: The assessment of new biotechnologies: would the world be different if Napoleon had received recombinant growth hormone? Barnett, M.L., 1820

BISPHENOL A-GLYCIDYL METHACRYLATE

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

BITE FORCE

Contributions of facial morphology, age, and gender to EMG activity under biting and resting conditions: a canonical correlation analysis. Fogle, L.L. and Glaros, A.G., 1496
Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318
Phosphorus magnetic resonance spectroscopy of human masseter muscle. Plesh, O., *et al.*, 338

BLACKS

Three-year tooth loss among black and white older adults in North Carolina. Drake, C.W., *et al.*, 675

BLEACHING (*see* Tooth Bleaching)

BLOOD CIRCULATION

Absence of parasympathetic vasodilation in cat dental pulp. Sasano, T., *et al.*, 1665
Evidence for the role of nitric oxide in the circulation of the dental pulp. Lohinai, Z., *et al.*, 1501

BONDING, DENTAL (*see* Dental Bonding)

BONE AND BONES

Fluoride reduces bone strength in older rats. Turner, C.H., *et al.*, 1475

BONE DEVELOPMENT

Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

BONE LOSS, PERIODONTAL (*see* Alveolar Bone Loss)

BONE RESORPTION

Reduction of infection-stimulated periapical

bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

BONE SUBSTITUTES

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

Reversible structural changes of octacalcium phosphate and labile acid phosphate. Suzuki, O., *et al.*, 1764

BOOK REVIEWS

Bad Breath—Research Perspectives, 1240

BREATHING

Effect of lung inflation on levator veli palatini muscle activity. Koizumi, H., *et al.*, 1235

CALCIFICATION, PHYSIOLOGIC

Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698

CALCITONIN GENE-RELATED PEPTIDE

Effects of neuropeptides (calcitonin gene-related peptide and substance P) on cultured human pulp cells, The. Trantor, I.R., *et al.*, 1066

CALCIUM

Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular gland cells. Fleming, N. and Mellow, L., 1295

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698

Properties of Ca^{2+}-dependent K^+ channels of human gingival fibroblasts. Takahashi, A., *et al.*, 1507

Reversible structural changes of octacalcium phosphate and labile acid phosphate. Suzuki, O., *et al.*, 1764

CALCIUM PHOSPHATES

Anticariogenicity of calcium phosphate complexes of tryptic casein phosphopeptides in the rat. Reynolds, E.C., *et al.*, 1272

Duration of dentinal tubule occlusion formed by calcium phosphate precipitation method: *in vitro* evaluation using synthetic saliva. Suge, T., *et al.*, 1709

Effects of fluoride on the calcium phosphate precipitation method for dentinal tubule occlusion. Suge, T., *et al.*, 1079

CALCIUM RADIOISOTOPES

Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698

CAMPYLOBACTER RECTUS

Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789

CANADA

Discovering Canada's oral tradition: dental research in the second half of the 20th century. Ellen, R.P., 1726, 1822

CANDIDA ALBICANS

Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837

Oral *Candida*: clearance, colonization, or candidiasis? Cannon, R.D., *et al.*, 1152

CANINE TOOTH

Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310

CARBAMIDE PEROXIDE

Acute toxicity of carbamide peroxide and a commercially available tooth-bleaching agent in rats. Dahl, J.E. and Becher, R., 710

CARBON DIOXIDE LASERS

Scanning electron microscope observations of CO_2 laser effects on dental enamel. McCormack, S.M., *et al.*, 1702

CARIOGENIC AGENTS

Anticariogenicity of calcium phosphate complexes of tryptic casein phosphopeptides in the rat. Reynolds, E.C., *et al.*, 1272

CASEINS

Anticariogenicity of calcium phosphate complexes of tryptic casein phosphopeptides in the rat. Reynolds, E.C., *et al.*, 1272

CATECHOLAMINES

Urinary catecholamine levels in children with and without dental caries. Vanderas, A.P., *et al.*, 1671

CATIONS

Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

CATS

Absence of parasympathetic vasodilation in cat dental pulp. Sasano, T., *et al.*, 1665

Evidence for the role of nitric oxide in the circulation of the dental pulp. Lohinai, Z., *et al.*, 1501

Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310

cDNA (*see* DNA, Complementary)

CELLS, CULTURED

Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521

Formation of differentiated tissues *in vivo* by periodontal cell populations cultured in vitro. Lang, H., *et al.*, 1219

CEMENTS (*see* Dental Cements)

CEMENTUM

Formation of differentiated tissues *in vivo* by periodontal cell populations cultured *in vitro*. Lang, H., *et al.*, 1219

CERAMICS

Effects of treatment and storage conditions on ceramic/composite bond strength. Roulet, J.F., *et al.*, 381

Failure of all-ceramic fixed partial dentures *in vitro* and *in vivo*: analysis and modeling. Kelly, J.R., *et al.*, 1253

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

Shear *vs.* tensile bond strength of resin composite bonded to ceramic. Della Bona, A. and van Noort, R., 1591

CHEMOTACTIC FACTORS

Isolation, purification, and partial characterization of an autocrine periodontal ligament cell chemotactic factor. Ye, J., *et al.*, 1303

CHEWING (*see* Mastication)

CHEWING GUM

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

Site-specificity of supragingival calculus deposition on the lingual surfaces of the six permanent lower anterior teeth in humans and the effects of age, sex, gum-chewing habits, and the time since the last prophylaxis on calculus scores, The. Macpherson, L.M.D., *et al.*, 1715

Xylitol chewing gums and caries rates: a 40-month cohort study. Mäkinen, K.K., *et al.*, 1904

CHILD

Urinary catecholamine levels in children with and without dental caries. Vanderas, A.P., *et al.*, 1671

CHILD BEHAVIOR DISORDERS

Prevalence of dental anxiety in children from low-income families and its relationship to personality traits, The. Raadal, M., *et al.*, 1439

CHLORHEXIDINE

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459

CHORDA TYMPANI NERVE

Re-innervation of the tongue and salivary glands after lingual nerve repair by stretch, sural nerve graft or frozen muscle graft, The. Smith, K.G. and Robinson, P.P., 1850

CHROMATIDS

Long-term exposure to fluoride in drinking water and sister chromatid exchange frequency in human blood

lymphocytes. Li, Y., *et al.*, 1468

CHROMIUM ALLOYS

Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521

Factors affecting the adherence energy of experimental resin cements bonded in a nickel-chromium alloy. Asmussen, E., *et al.*, 715

CIRCULATION (*see* Blood Circulation)

CLINICAL RESEARCH (*see* Research)

CLINICAL TRIALS

Definitive *vs.* exploratory periodontal trials: a survey of published studies. Hujoel, P.P., 1453

Recruitment issues: errors of omission in dental research. Weinstein, P., *et al.*, 1028

COLLAGEN

Collagen biosynthesis in human oral submucous fibrosis fibroblast cultures. Kuo, M.Y.P., *et al.*, 1783

Enhanced cytokine production and collagen synthesis of gingival fibroblasts from patients with denture fibromatosis. Nakao, K., *et al.*, 1072

Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

Specific and charge interactions mediate collagen recognition by oral lactobacilli. McGrady, J.A., *et al.*, 649

Temporal and spatial expressions of type XII collagen in the remodeling periodontal ligament during experimental tooth movement. Karimbux, N.Y. and Nishimura, I., 313

Tensile properties of resin-infiltrated demineralized human dentin. Sano, H., *et al.*, 1093

COLLAGENASE

Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

COLONY-STIMULATING FACTORS

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (erratum)

COLOR

HeNe-laser light scattering by human dental enamel. Zijp, J.R., *et al.*, 1891

Tooth color and reflectance as related to light scattering and enamel hardness. ten Bosch, J.J. and Coops, J.C., 374

COMMUNICABLE DISEASES

Dental caries is a transmissible infectious disease: the Keyes and Fitzgerald revolution. Tanzer, J.M., 1536

COMPOSITES

Analysis of the results of a laboratory test on resin composite cements for resin-bonded bridges. Hoppenbrouwers, P.M.M., *et al.*, 1833

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

Effects of treatment and storage conditions on ceramic/composite bond strength. Roulet, J.F., *et al.*, 381

Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162

Fracture toughness of experimental dental composites aged in ethanol. Ferracane, J.L. and Berge, H.X., 1418

Shear *vs.* tensile bond strength of resin composite bonded to ceramic. Della Bona, A. and van Noort, R., 1591

Tensile strength of thin resin composite layers as a function of layer thickness. Alster, D., *et al.*, 1745

COMPUTER-ASSISTED IMAGE PROCESSING (*see* Image Processing, Computer-Assisted)

COMPUTER SIMULATION

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

CONDYLE (*see* Mandibular Condyle)

CONFLICT OF INTEREST

Ethical issues in sponsored clinical research. Barnett, M.L., 1129*

CRANIOFACIAL BONES (see Facial Bones)

CROSS-LINKING REAGENTS

Effects of cross-linking agents on some properties of HEMA-based resins, The. Arima, T., *et al.*, 1597

CROWNS

Genetic covariance structure of incisor crown size in twins. Dempsey, P.J., *et al.*, 1389

CYCLIC AMP

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

CYTOKINES

Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

Enhanced cytokine production and collagen synthesis of gingival fibroblasts from patients with denture fibromatosis. Nakao, K., *et al.*, 1072

LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

Volatile fatty acids, metabolic by-products of periodontopathic bacteria, inhibit lymphocyte proliferation and cytokine production. Kurita-Ochiai, T., *et al.*, 1367

DECORIN

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

DEMINERALIZATION (*see* Tooth Demineralization)

DENTAL ALLOYS

Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521

Factors affecting the adherence energy of experimental resin cements bonded in a nickel-chromium alloy. Asmussen, E., *et al.*, 715

Mercury vaporization from amalgams with varied alloy compositions. Ferracane, J.L., *et al.*, 1414

Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

DENTAL AMALGAM

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

Combined estimation of mercury species released from amalgam. Halbach, S., 1103

Hypermineralization of dentinal lesions adjacent to glass-ionomer cement restorations. ten Cate, J.M. and van Duinen, R.N.B., 1266

Marginal ditching and staining as a predictor of secondary caries around amalgam restorations: a clinical and microbiological study. Kidd, E.A.M., *et al.*, 1206

Mercury release from dental amalgams: an *in vitro* study under controlled chewing and brushing in an artificial mouth. Berdouses, E., *et al.*, 1185

Mercury vaporization from amalgams with varied alloy compositions. Ferracane, J.L., *et al.*, 1414

DENTAL ANXIETY

Prevalence of dental anxiety in children from low-income families and its relationship to personality traits, The. Raadal, M., *et al.*, 1439

DENTAL BONDING

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

Effects of treatment and storage conditions on ceramic/composite bond strength. Roulet, J.F., *et al.*, 381

Factors affecting the adherence energy of experimental resin cements bonded in a nickel-chromium alloy. Asmussen, E., *et al.*, 715

Tensile bond strength and SEM evaluation of caries-affected dentin using dentin adhesives. Nakajima, M., *et al.*, 1679

Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

DENTAL CALCULUS

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459

Site-specificity of supragingival calculus deposition on the lingual surfaces of the six permanent lower anterior teeth in humans and the effects of age, sex, gum-chewing habits, and the time since the last prophylaxis on calculus scores, The. Macpherson, L.M.D., *et al.*, 1715

DENTAL CARIES

Anticariogenicity of calcium phosphate complexes of tryptic casein phosphopeptides in the rat. Reynolds, E.C., *et al.*, 1272

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686

Computer-assisted reconstruction of enamel fissures and carious lesions of human premolars. Hirano, Y. and Aoba, T., 1200

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

Distribution of fluoride in carious human enamel, The. Pearce, E.I.F., *et al.*, 1775

Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444

Evidence that high-sucrose diet reduces dentin formation and disturbs mineralization in rat molars. Hietala, E.-L. and Larmas, M., 1899

Guest editorial: dentin and pulp: endodontics or operative dentistry? Mjör, I.A., 1535

Hypermineralization of dentinal lesions adjacent to glass-ionomer cement restorations. ten Cate, J.M. and van Duinen, R.N.B., 1266

Longitudinal evaluation of fissure sealants applied in dental practices, A. Ismail, A.I. and Gagnon, P., 1583

Marginal ditching and staining as a predictor of secondary caries around amalgam restorations: a clinical and microbiological study. Kidd, E.A.M., *et al.*, 1206

Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770

Specific and charge interactions mediate collagen recognition by oral lactobacilli. McGrady, J.A., *et al.*, 649

Tensile bond strength and SEM evaluation of caries-affected dentin using dentin adhesives. Nakajima, M., *et al.*, 1679

Urinary catecholamine levels in children with and without dental caries. Vanderas, A.P., *et al.*, 1671

Xylitol chewing gums and caries rates: a 40-month cohort study. Mäkinen, K.K., *et al.*, 1904

DENTAL CAVITY PREPARATION

Cavity preparation with the Nd:YLF picosecond laser. Niemz, M.H., 1194

DENTAL CEMENTS

Analysis of the results of a laboratory test on resin composite cements for resin-bonded bridges. Hoppenbrouwers, P.M.M., *et al.*, 1833

Factors affecting the adherence energy of experimental resin cements bonded in a nickel-chromium alloy. Asmussen, E., *et al.*, 715

Tensile strength of thin resin composite layers as a function of layer thickness. Alster, D., *et al.*, 1745

DENTAL CEMENTUM

Alkaline phosphatase activity in the periodontal ligament and gingiva of the rat molar: its relation to cementum formation. Groeneveld, M.C., *et al.*, 1374

DENTAL ENAMEL

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

Computer-assisted reconstruction of enamel fissures and carious lesions of human premolars. Hirano, Y. and Aoba, T., 1200

Consideration of possible biologic mechanisms of fluorosis. Bawden, J.W., *et al.*, 1349

Distribution of fluoride in carious human enamel, The. Pearce, E.I.F., *et al.*, 1775

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

HeNe-laser light scattering by human dental enamel. Zijp, J.R., *et al.*, 1891

Influence of bur blade concentricity on high-speed tooth-cutting interactions: a video-rate confocal microscopic study, The. Watson, T.F. and Cook, R.J., 1749

Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086

Lipoteichoic acid inhibits remineralization of artificial subsurface lesions and surface-softened enamel. Damen, J.J.M., *et al.*, 1689

Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

Scanning electron microscope observations of CO_2 laser effects on dental enamel. McCormack, S.M., *et al.*, 1702

Tooth color and reflectance as related to light scattering and enamel hardness. ten Bosch, J.J. and Coops, J.C., 374

DENTAL FISSURES

Computer-assisted reconstruction of enamel fissures and carious lesions of human premolars. Hirano, Y. and Aoba, T., 1200

DENTAL FOLLICLE (*see* **Dental Sac**)

DENTAL HEALTH SURVEYS

Relation between clinical dental status and subjective impacts on daily living. Leao, A. and Sheiham, A., 1408

DENTAL HIGH-SPEED EQUIPMENT

Influence of bur blade concentricity on high-speed tooth-cutting interactions: a video-rate confocal microscopic study, The. Watson, T.F. and Cook, R.J., 1749

DENTAL IMPLANTS

Guest editorial: implant hardware—science or commodity development? Henry, P.J., 301

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

DENTAL INLAYS (*see* **Inlays**)

DENTAL LEAKAGE

Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

DENTAL MATERIALS

Effects of treatment and storage conditions on ceramic/composite bond strength. Roulet, J.F., *et al.*, 381

DENTAL MODELS

Biomechanical analysis of jaw-closing movements. Koolstra, J.H. and van Eijden, T.M.G.J., 1564

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

Diffusion and enzymic hydrolysis of monofluorophosphate in dental plaque, The. Pearce, E.I.F. and Dibdin, G.H., 691

DENTAL PLAQUE

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

Diffusion and enzymic hydrolysis of monofluorophosphate in dental plaque, The. Pearce, E.I.F. and Dibdin, G.H., 691

Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459

Lipoteichoic acid inhibits remineralization of artificial subsurface lesions and surface-softened enamel. Damen, J.J.M., *et al.*, 1689

Volatile fatty acids, metabolic by-products of periodontopathic bacteria, inhibit lymphocyte proliferation and cytokine production. Kurita-Ochiai, T., *et al.*, 1367

DENTAL PORCELAIN

Isothermal anneal effect on leucite content in

dental porcelains. Mackert, J.R., *et al.*, 1259

DENTAL PROPHYLAXIS

Site-specificity of supragingival calculus deposition on the lingual surfaces of the six permanent lower anterior teeth in humans and the effects of age, sex, gum-chewing habits, and the time since the last prophylaxis on calculus scores, The. Macpherson, L.M.D., *et al.*, 1715

DENTAL PULP

Absence of parasympathetic vasodilation in cat dental pulp. Sasano, T., *et al.*, 1665

Effects of neuropeptides (calcitonin gene-related peptide and substance P) on cultured human pulp cells, The. Trantor, I.R., *et al.*, 1066

Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162

Evidence for the role of nitric oxide in the circulation of the dental pulp. Lohinai, Z., *et al.*, 1501

Guest editorial: dentin and pulp: endodontics or operative dentistry? Mjör, I.A., 1535

DENTAL PULP CAVITY

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

DENTAL RESEARCH (*see* **Research**)

DENTAL RESTORATION, PERMANENT

Marginal ditching and staining as a predictor of secondary caries around amalgam restorations: a clinical and microbiological study. Kidd, E.A.M., *et al.*, 1206

DENTAL SAC

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (*erratum*)

DENTAL SCALING

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459

DENTAL STRESS ANALYSIS

Shear *vs.* tensile bond strength of resin composite bonded to ceramic. Della Bona, A. and van Noort, R., 1591

DENTIFRICES

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

DENTIN

Characterization of cellular responses involved in reparative dentinogenesis in rat molars. D'Souza, R.N., *et al.*, 702

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

Evidence that high-sucrose diet reduces dentin formation and disturbs mineralization in rat molars. Hietala, E.-L. and Larmas, M., 1899

Guest editorial: dentin and pulp: endodontics or operative dentistry? Mjör, I.A., 1535

Hypermineralization of dentinal lesions adjacent to glass-ionomer cement restorations. ten Cate, J.M. and van Duinen, R.N.B., 1266

Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086

Mineral distribution and dimensional changes in human dentin during demineralization. Kinney, J.H., *et al.*, 1179

Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770

Scanning transmission electron microscopy/energy-dispersive spectroscopy analysis of the dentin adhesive interface using a labeled 2-hydroxyethylmethacrylate analogue. Eick, J.D., *et al.*, 1246

Tensile bond strength and SEM evaluation of caries-affected dentin using dentin adhesives. Nakajima, M., *et al.*, 1679

Tensile properties of resin-infiltrated demineralized human dentin. Sano, H., *et al.*, 1093

DENTIN-BONDING AGENTS

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

Mineral distribution and dimensional changes in human dentin during demineralization. Kinney, J.H., *et al.*, 1179

Scanning transmission electron microscopy/energy-dispersive spectroscopy analysis of the dentin adhesive interface using a labeled 2-hydroxyethylmethacrylate analogue. Eick, J.D., *et al.*, 1246

Tensile bond strength and SEM evaluation of caries-affected dentin using dentin adhesives. Nakajima, M., *et al.*, 1679

Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

DENTIN PERMEABILITY

Duration of dentinal tubule occlusion formed by calcium phosphate precipitation method: *in vitro* evaluation using synthetic saliva. Suge, T., *et al.*, 1709

DENTIN SENSITIVITY

Duration of dentinal tubule occlusion formed by calcium phosphate precipitation method: *in vitro* evaluation using synthetic saliva. Suge, T., *et al.*, 1709

Effects of fluoride on the calcium phosphate precipitation method for dentinal tubule occlusion. Suge, T., *et al.*, 1079

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

DENTINOGENESIS

Characterization of cellular responses involved in reparative dentinogenesis in rat molars. D'Souza, R.N., *et al.*, 702

DENTISTRY

Charting our future, 1150

Guest editorial: dental specialists and IADR. Ngan, P.W.H., 628

Guest editorial: the three rules of life: some modest advice for those embarking on a career in dental research. Barnett, M.L., 1628

Mouth that roared: effective advocacy in the nineties and beyond, The. Barnett, M.L., 1148

DENTISTRY, OPERATIVE

Guest editorial: dentin and pulp: endodontics or operative dentistry? Mjör, I.A., 1535

DENTURE, PARTIAL, FIXED

Failure of all-ceramic fixed partial dentures *in vitro* and *in vivo*: analysis and modeling. Kelly, J.R., *et al.*, 1253

DENTURE, PARTIAL, FIXED, RESIN-BONDED

Analysis of the results of a laboratory test on resin composite cements for resin-bonded bridges. Hoppenbrouwers, P.M.M., *et al.*, 1833

DENTURE BASES

Effects of cross-linking agents on some properties of HEMA-based resins, The. Arima, T., *et al.*, 1597

DENTURES

Enhanced cytokine production and collagen synthesis of gingival fibroblasts from patients with denture fibromatosis. Nakao, K., *et al.*, 1072

DEVELOPING COUNTRIES

Guest editorial: aging—a global issue, 724

DIAGNOSTIC TESTS

Validity of diagnostic and monitoring tests used for temporomandibular disorders. Lund, J.P., *et al.*, 1133*

DIET

Dental caries is a transmissible infectious disease: the Keyes and Fitzgerald revolution. Tanzer, J.M., 1536

Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444

Evidence that high-sucrose diet reduces dentin formation and disturbs mineralization in rat molars. Hietala, E.-L. and Larmas, M., 1899

DIFFUSION

Diffusion and enzymic hydrolysis of monofluorophosphate in dental plaque, The. Pearce, E.I.F. and Dibdin, G.H., 691

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

9,10-DIMETHYL-1,2-BENZANTHRACENE

Hypertriglyceridemia associated with tumor

necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

DIOPSIDE

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

DISEASE MODELS, ANIMAL

Development and histologic characterization of an animal model of antigen-induced arthritis of the juvenile rabbit temporomandibular joint. Kapila, S., *et al.*, 1870

DMBA (see 9,10-Dimethyl-1,2-benzanthracene)

DMF INDEX

Relation between clinical dental status and subjective impacts on daily living. Leao, A. and Sheiham, A., 1408

DNA, COMPLEMENTARY

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

Bovine enamel organ cells express tissue non-specific alkaline phosphatase mRNA. Yuan, Z.A., *et al.*, 1886

Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307

Identification of bone-type alkaline phosphatase mRNA from human periodontal ligament cells. Goseki, M., *et al.*, 319

DNA FINGERPRINTING

Fidelity of initial acquisition of mutans streptococci by infants from their mothers, The. Li, Y. and Caufield, P.W., 681

DOGS

Effect of lung inflation on levator veli palatini muscle activity. Koizumi, H., *et al.*, 1235

DOPAMINE

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

EDUCATION, DENTAL

Some reflections on the influence of Neil Jenkins on dental education and research. Dawes, C., 1346

ELASTASE (see Pancreatopeptidase)

ELASTICITY

Tensile properties of resin-infiltrated demineralized human dentin. Sano, H., *et al.*, 1093

ELDERLY (see Aged)

ELECTROMYOGRAPHY

Contributions of facial morphology, age, and gender to EMG activity under biting and resting conditions: a canonical correlation analysis. Fogle, L.L. and Glaros, A.G., 1496

Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318

Role of sensory information in the control of rhythmic open-close movements in humans, The. van der Bilt, A., *et al.*, 1658

ELECTRON PROBE MICROANALYSIS

Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770

EMBRYOLOGY

Expression of transglutaminase C during the prenatal development of human submandibular glands. Lee, S.K., 1812

ENAMEL (see Dental Enamel)

ENAMEL ORGAN

Bovine enamel organ cells express tissue non-specific alkaline phosphatase mRNA. Yuan, Z.A., *et al.*, 1886

ENDODONTICS

Guest editorial: dentin and pulp: endodontics or operative dentistry? Mjör, I.A., 1535

ENVIRONMENT

Genetic covariance structure of incisor crown size in twins. Dempsey, P.J., *et al.*, 1389

EPIDEMIOLOGY

Critical issues in periodontal research. Page, R.C., 1118*

EPIDERMAL GROWTH FACTOR-UROGASTRONE

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

EQUIPMENT FAILURE (see Failure of Dental Materials)

ETCHING, DENTAL (see Acid Etching, Dental)

ETHANOL (see Alcohol, Ethyl)

ETHICS, DENTAL

Ethical issues in sponsored clinical research. Barnett, M.L., 1129*

Guest editorial: real writers *vs.* listed authors: an ethical problem. Lazar, R., 1244

EXTRACELLULAR MATRIX

Characterization and identification of proteinases and proteinase inhibitors synthesized by temporomandibular joint disc cells. Kapila, A., *et al.*, 1328

Temporal and spatial expressions of type XII collagen in the remodeling periodontal ligament during experimental tooth movement. Karimbux, N.Y. and Nishimura, I., 313

EXTRACELLULAR MATRIX PROTEINS

Consideration of possible biologic mechanisms of fluorosis. Bawden, J.W., *et al.*, 1349

Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

EXTRAPAROTID GLYCOPROTEIN (see Glycoproteins)

FACIAL BONES

Contributions of facial morphology, age, and gender to EMG activity under biting and resting conditions: a canonical correlation analysis. Fogle, L.L. and Glaros, A.G., 1496

Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

FAILURE OF DENTAL MATERIALS

Failure of all-ceramic fixed partial dentures *in vitro* and *in vivo*: analysis and modeling. Kelly, J.R., *et al.*, 1253

Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

FATTY ACIDS, VOLATILE

Volatile fatty acids, metabolic by-products of periodontopathic bacteria, inhibit lymphocyte proliferation and cytokine production. Kurita-Ochiai, T., *et al.*, 1367

FDA (see United States Food and Drug Administration)

FETAL DEVELOPMENT (see Embryology)

FETUS

Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

FIBROBLAST GROWTH FACTOR

Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

FIBROBLASTS

Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521

Collagen biosynthesis in human oral submucous fibrosis fibroblast cultures. Kuo, M.Y.P., *et al.*, 1783

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

Enhanced cytokine production and collagen synthesis of gingival fibroblasts from patients with denture fibromatosis. Nakao, K., *et al.*, 1072

LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802

Properties of Ca^{2+}-dependent K^+ channels of human gingival fibroblasts. Takahashi,

A., *et al.*, 1507
Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

FINANCING, GOVERNMENT
Guest editorial: dental science: the importance of maintaining balanced research programs. Marjenhoff, W.A., 1724

FISSURE SEALANTS (see Pit and Fissure Sealants)

FISSURES (*see* Dental Fissures)

FLUORIDES
Consideration of possible biologic mechanisms of fluorosis. Bawden, J.W., *et al.*, 1349
Diffusion and enzymic hydrolysis of monofluorophosphate in dental plaque, The. Pearce, E.I.F. and Dibdin, G.H., 691
Distribution of fluoride in carious human enamel, The. Pearce, E.I.F., *et al.*, 1775
Effect of aging on animal response to chronic fluoride exposure. Dunipace, A.J., *et al.*, 358
Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618
Effects of fluoride on the calcium phosphate precipitation method for dentinal tubule occlusion. Suge, T., *et al.*, 1079
Fluoride reduces bone strength in older rats. Turner, C.H., *et al.*, 1475
Infants' fluoride intake from drinking water alone, and from water added to formula, beverages, and food. Levy, S.M., *et al.*, 1399
Long-term exposure to fluoride in drinking water and sister chromatid exchange frequency in human blood lymphocytes. Li, Y., *et al.*, 1468

FLUOROSIS (*see* Mottled Enamel)

FOOD
Role of sensory information in the control of rhythmic open-close movements in humans, The. van der Bilt, A., *et al.*, 1658

FRACTURES
Failure of all-ceramic fixed partial dentures *in vitro* and *in vivo*: analysis and modeling. Kelly, J.R., *et al.*, 1253
Fracture toughness of experimental dental composites aged in ethanol. Ferracane, J.L. and Berge, H.X., 1418
Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

FUSOBACTERIUM
Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

GENDER (*see* Sex)

GENE EXPRESSION
Collagen biosynthesis in human oral submucous fibrosis fibroblast cultures. Kuo, M.Y.P., *et al.*, 1783
Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307
Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226
Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837
Identification of bone-type alkaline phosphatase mRNA from human periodontal ligament cells. Goseki, M., *et al.*, 319
Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303
Temporal and spatial expressions of type XII collagen in the remodeling periodontal ligament during experimental tooth movement. Karimbux, N.Y. and Nishimura, I., 313

GENE LIBRARY
Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307
Identification of bone-type alkaline phosphatase mRNA from human periodontal ligament cells. Goseki, M., *et al.*, 319

GENETICS
Genetic covariance structure of incisor crown size in twins. Dempsey, P.J., *et al.*, 1389
Long-term exposure to fluoride in drinking water and sister chromatid exchange frequency in human blood lymphocytes. Li, Y., *et al.*, 1468

GINGIVA
Alkaline phosphatase activity in the periodontal ligament and gingiva of the rat molar: its relation to cementum formation. Groeneveld, M.C., *et al.*, 1374
Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521
Enhanced cytokine production and collagen synthesis of gingival fibroblasts from patients with denture fibromatosis. Nakao, K., *et al.*, 1072
Localization of active and inactive elastase, alpha-1-proteinase inhibitor, and alpha-2-macroglobulin in human gingiva. Kennett, C.N., *et al.*, 667
Properties of Ca^{2+}-dependent K^+ channels of human gingival fibroblasts. Takahashi, A., *et al.*, 1507
Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

GINGIVAL HYPERPLASIA
Enhanced cytokine production and collagen synthesis of gingival fibroblasts from patients with denture fibromatosis. Nakao, K., *et al.*, 1072

GLASS-IONOMER CEMENTS
Hypermineralization of dentinal lesions adjacent to glass-ionomer cement restorations. ten Cate, J.M. and van Duinen, R.N.B., 1266

GLUCANS
Characterization of glucosyltransferaseB, GtfC, and GtfD in solution and on the surface of hydroxyapatite. Venkitaraman, A.R., *et al.*, 1695
Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

GLUCOSE
Effect of sucrose monolaurate on acid production, levels of glycolytic intermediates, and enzyme activities on *Streptococcus mutans* NCTC 10449. Iwami, Y., *et al.*, 1613

GLUCOSYLTRANSFERASES
Characterization of glucosyltransferaseB, GtfC, and GtfD in solution and on the surface of hydroxyapatite. Venkitaraman, A.R., *et al.*, 1695

GLYCOLYSIS
Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618
Effect of sucrose monolaurate on acid production, levels of glycolytic intermediates, and enzyme activities on *Streptococcus mutans* NCTC 10449. Iwami, Y., *et al.*, 1613

GLYCOPROTEINS
EP-GP and the lipocalin VEGh, two different human salivary 20-kDa proteins. Schenkels, L.C.P.M., *et al.*, 1543
Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040
Quantifying the strength of bacterial adhesive interactions with salivary glycoproteins. Prakobphol, A., *et al.*, 1212

GOVERNMENT FINANCING (*see* Financing, Government)

GROWTH HORMONE (*see* Somatotropin)

GROWTH SUBSTANCES
Isolation, purification, and partial characterization of an autocrine periodontal ligament cell chemotactic factor. Ye, J., *et al.*, 1303
Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303
Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

GUIDELINES
Efficacy of the FDA selection criteria for radiographic assessment of the periodontium. Atchison, K.A., *et al.*, 1424

HAEMOPHILUS INFLUENZAE
Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607
Binding of human high-molecular-weight salivary mucins (MG1) to *Hemophilus*

parainfluenzae. Veerman, E.C.I., *et al.*, 351

HALITOSIS

Self-estimation of oral malodor. Rosenberg, M., *et al.*, 1577

HAMSTERS

Dental caries is a transmissible infectious disease: the Keyes and Fitzgerald revolution. Tanzer, J.M., 1536

Hypertriglyceridemia associated with tumor necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

HARDNESS

Tooth color and reflectance as related to light scattering and enamel hardness. ten Bosch, J.J. and Coops, J.C., 374

HEAT

Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086

HEMA (*see* Hydroxyethyl Methacrylate)

HETEROGENEITY (*see* Population)

HISTATINS

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837

HISTIDINE

Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837

HISTORY OF DENTISTRY

Discovering Canada's oral tradition: dental research in the second half of the 20th century. Ellen, R.P., 1726, 1822

HORSERADISH PEROXIDASE

Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

HYDROGEN-ION CONCENTRATION

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618

Phosphorus magnetic resonance spectroscopy of human masseter muscle. Plesh, O., *et al.*, 338

HYDROLYSIS

Diffusion and enzymic hydrolysis of monofluorophosphate in dental plaque, The. Pearce, E.I.F. and Dibdin, G.H., 691

HYDROSTATIC PRESSURE

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

HYDROXYAPATITES

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

Characterization of glucosyltransferaseB, GtfC, and GtfD in solution and on the surface of hydroxyapatite. Venkitaraman, A.R., *et al.*, 1695

Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618

Effects of fluoride on the calcium phosphate precipitation method for dentinal tubule occlusion. Suge, T., *et al.*, 1079

Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040

Salivary amylase promotes adhesion of oral streptococci to hydroxyapatite. Scannapieco, F.A., *et al.*, 1360

HYDROXYETHYL METHACRYLATE

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

Effects of cross-linking agents on some properties of HEMA-based resins, The. Arima, T., *et al.*, 1597

Scanning transmission electron microscopy/energy-dispersive spectroscopy analysis of the dentin adhesive interface using a labeled 2-hydroxyethylmethacrylate analogue. Eick, J.D., *et al.*, 1246

HYPERTRIGLYCERIDEMIA

Hypertriglyceridemia associated with tumor necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

IADR/AADR

Abstracts, IADR/AADR, 12-292, 401-624

Charting our future, 1150

Divisional abstracts, 728-1024, 1337

Guest editorial: dental specialists and IADR. Ngan, P.W.H., 628

Seventy-five and growing. Ranney, R.R., 1343

IGA, SECRETORY

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

IMAGE PROCESSING, COMPUTER-ASSISTED

Computer-assisted reconstruction of enamel fissures and carious lesions of human premolars. Hirano, Y. and Aoba, T., 1200

Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770

IMMUNOMODULATORS (*see* Adjuvants, Immunologic)

INCISOR

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162

Genetic covariance structure of incisor crown size in twins. Dempsey, P.J., *et al.*, 1389

INFANT

Fidelity of initial acquisition of mutans streptococci by infants from their mothers, The. Li, Y. and Caufield, P.W., 681

Infants' fluoride intake from drinking water alone, and from water added to formula, beverages, and food. Levy, S.M., *et al.*, 1399

INFECTIOUS DISEASES (*see* Communicable Diseases)

INFLAMMATION

Guest editorial: implant hardware—science or commodity development? Henry, P.J., 301

INFLAMMATION MEDIATORS

LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802

INLAYS

Effects of treatment and storage conditions on ceramic/composite bond strength. Roulet, J.F., *et al.*, 381

INSULIN-LIKE GROWTH FACTORS

Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

INTERLEUKINS

Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

Inhibition of prostaglandin E_2 and interleukin 1-α production by low-power laser irradiation in stretched human periodontal ligament cells. Shimizu, N., *et al.*, 1382

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

ION TRANSPORT
Properties of Ca^{2+}-dependent K^+ channels of human gingival fibroblasts. Takahashi, A., *et al.*, 1507

IONS
Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521

JAW
Biomechanical analysis of jaw-closing movements. Koolstra, J.H. and van Eijden, T.M.G.J., 1564
Jaw pain prevalence among French-speaking Canadians in Québec and related symptoms of temporomandibular disorders. Goulet, J.-P., *et al.*, 1738
Kinematic center, The: a reference for condylar movements. Yatabe, M., *et al.*, 1644

JENKINS, NEIL
Some reflections on the influence of Neil Jenkins on dental education and research. Dawes, C., 1346

JOURNAL OF DENTAL RESEARCH
Editor's report, 1994. Herzberg, M., 300

LACTOBACILLUS
Dental caries is a transmissible infectious disease: the Keyes and Fitzgerald revolution. Tanzer, J.M., 1536
Specific and charge interactions mediate collagen recognition by oral lactobacilli. McGrady, J.A., *et al.*, 649

LACTOFERRIN
Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

LASERS
Cavity preparation with the Nd:YLF picosecond laser. Niemz, M.H., 1194
HeNe-laser light scattering by human dental enamel. Zijp, J.R., *et al.*, 1891
Inhibition of prostaglandin E_2 and interleukin 1-α production by low-power laser irradiation in stretched human periodontal ligament cells. Shimizu, N., *et al.*, 1382
Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086
Scanning electron microscope observations of CO_2 laser effects on dental enamel. McCormack, S.M., *et al.*, 1702

LEAKAGE (*see* Dental Leakage)

LEAST-SQUARE ANALYSIS
Multiple-outcomes meta-analysis of treatments for periodontal disease. Berkey, C.S., *et al.*, 1030

LEUCITE
Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

LEUKOCYTES
Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

LIGHT
HeNe-laser light scattering by human dental enamel. Zijp, J.R., *et al.*, 1891
Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086
Tooth color and reflectance as related to light scattering and enamel hardness. ten Bosch, J.J. and Coops, J.C., 374

LINGUAL NERVE
Re-innervation of the tongue and salivary glands after lingual nerve repair by stretch, sural nerve graft or frozen muscle graft, The. Smith, K.G. and Robinson, P.P., 1850

LIPOPOLYSACCHARIDES
Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057
LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802

LIPOPROTEIN LIPASE
Hypertriglyceridemia associated with tumor necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

LIPOTEICHOIC ACID
Lipoteichoic acid inhibits remineralization of artificial subsurface lesions and surface-softened enamel. Damen, J.J.M., *et al.*, 1689

LIVER
Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444

LOW-INCOME POPULATION (*see* POVERTY)

LUNG
Effect of lung inflation on levator veli palatini muscle activity. Koizumi, H., *et al.*, 1235

LYMPHOCYTES
Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162
Long-term exposure to fluoride in drinking water and sister chromatid exchange frequency in human blood lymphocytes. Li, Y., *et al.*, 1468
Volatile fatty acids, metabolic by-products of periodontopathic bacteria, inhibit lymphocyte proliferation and cytokine production. Kurita-Ochiai, T., *et al.*, 1367

LYSINE
Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686

LYSOZYME (*see* Muramidase)

MACROGLOBULINS
Localization of active and inactive elastase, alpha-1-proteinase inhibitor, and alpha-2-macroglobulin in human gingiva. Kennett, C.N., *et al.*, 667

MACROPHAGES
Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

MAGNETIC RESONANCE SPECTROSCOPY (*see* Nuclear Magnetic Resonance)

MANDIBLE
Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

MANDIBULAR CONDYLE
Follow-up study of radiographic findings in the mandibular condyles of orthodontically treated patients and associations with TMD, A. Peltola, J.S., *et al.*, 1571
Kinematic center, The: a reference for condylar movements. Yatabe, M., *et al.*, 1644

MARGINAL ADAPTATION (DENTISTRY)
Marginal ditching and staining as a predictor of secondary caries around amalgam restorations: a clinical and microbiological study. Kidd, E.A.M., *et al.*, 1206

MASSETER MUSCLE
Effect of maturation on ^{31}P magnetic resonance spectroscopy of the rabbit masseter muscle. Chang, C., *et al.*, 1861
Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318
Function-dependent anatomical parameters of rabbit masseter motor units. Kwa, S.H.S., *et al.*, 1649
Phosphorus magnetic resonance spectroscopy of human masseter muscle. Plesh, O., *et al.*, 338

MAST CELLS
Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

MASTICATION
Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318
Mercury release from dental amalgams: an *in vitro* study under controlled chewing and brushing in an artificial mouth. Berdouses, E., *et al.*, 1185
Role of sensory information in the control of rhythmic open-close movements in humans, The. van der Bilt, A., *et al.*, 1658

MASTICATORY MUSCLES
Architecture of the human pterygoid

muscles. van Eijden, T.M.G.J., *et al.*, 1489
Biomechanical analysis of jaw-closing movements. Koolstra, J.H. and van Eijden, T.M.G.J., 1564
Contributions of facial morphology, age, and gender to EMG activity under biting and resting conditions: a canonical correlation analysis. Fogle, L.L. and Glaros, A.G., 1496
Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318
Role of sensory information in the control of rhythmic open-close movements in humans, The. van der Bilt, A., *et al.*, 1658
Weakness in mouse masticatory muscles by repetitive contractions with forced lengthening. Hutchins, M.O., *et al.*, 642

MATRIX, EXTRACELLULAR (*see* Extracellular Matrix)

MECHANORECEPTORS
Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310

MERCURY
Combined estimation of mercury species released from amalgam. Halbach, S., 1103
Mercury release from dental amalgams: an *in vitro* study under controlled chewing and brushing in an artificial mouth. Berdouses, E., *et al.*, 1185
Mercury vaporization from amalgams with varied alloy compositions. Ferracane, J.L., *et al.*, 1414

META-ANALYSIS
Multiple-outcomes meta-analysis of treatments for periodontal disease. Berkey, C.S., *et al.*, 1030

METAL CERAMIC ALLOYS
Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

METALLOPROTEINASES
Characterization and identification of proteinases and proteinase inhibitors synthesized by temporomandibular joint disc cells. Kapila, A., *et al.*, 1328

METALS
Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521
Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

MICE
Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602
Weakness in mouse masticatory muscles by repetitive contractions with forced lengthening. Hutchins, M.O., *et al.*, 642

MICROFILAMENT PROTEINS
EP-GP and the lipocalin VEGh, two different human salivary 20-kDa proteins. Schenkels, L.C.P.M., *et al.*, 1543

MICROFRACTURES (*see* Fractures)

MICROLEAKAGE (*see* Dental Leakage)

MICROSCOPY, ATOMIC FORCE
Mineral distribution and dimensional changes in human dentin during demineralization. Kinney, J.H., *et al.*, 1179

MICROSCOPY, CONFOCAL
Influence of bur blade concentricity on high-speed tooth-cutting interactions: a video-rate confocal microscopic study, The. Watson, T.F. and Cook, R.J., 1749

MICROSCOPY, ELECTRON
Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770

MICROSCOPY, ELECTRON, SCANNING
Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310
Scanning electron microscope observations of CO_2 laser effects on dental enamel. McCormack, S.M., *et al.*, 1702
Scanning transmission electron microscopy/energy-dispersive spectroscopy analysis of the dentin adhesive interface using a labeled 2-hydroxyethylmethacrylate analogue. Eick, J.D., *et al.*, 1246
Tensile bond strength and SEM evaluation of caries-affected dentin using dentin adhesives. Nakajima, M., *et al.*, 1679
Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

MICROSCOPY, ELECTRON SCANNING TRANSMISSION
High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756

MICROSCOPY, VIDEO
Influence of bur blade concentricity on high-speed tooth-cutting interactions: a video-rate confocal microscopic study, The. Watson, T.F. and Cook, R.J., 1749

MINERALS
Mineral distribution and dimensional changes in human dentin during demineralization. Kinney, J.H., *et al.*, 1179
Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770

MODELS, DENTAL (*see* Dental Models)

MODELS, STATISTICAL
Multiple-outcomes meta-analysis of treatments for periodontal disease. Berkey, C.S., *et al.*, 1030
Statistical issues in periodontal research. DeRouen, T.A., *et al.*, 1731

MOLAR
Alkaline phosphatase activity in the periodontal ligament and gingiva of the rat molar: its relation to cementum formation. Groeneveld, M.C., *et al.*, 1374
Characterization of cellular responses involved in reparative dentinogenesis in rat molars. D'Souza, R.N., *et al.*, 702
Evidence that high-sucrose diet reduces dentin formation and disturbs mineralization in rat molars. Hietala, E.-L. and Larmas, M., 1899

MONOCYTES
Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

MONOFLUOROPHOSPHATE
Diffusion and enzymic hydrolysis of monofluorophosphate in dental plaque, The. Pearce, E.I.F. and Dibdin, G.H., 691

MONOMERS
Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

MONTE CARLO METHOD
Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086

MOTHERS
Fidelity of initial acquisition of mutans streptococci by infants from their mothers, The. Li, Y. and Caufield, P.W., 681

MOTTLED ENAMEL
Consideration of possible biologic mechanisms of fluorosis. Bawden, J.W., *et al.*, 1349

MOUTH
Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482
Mercury release from dental amalgams: an *in vitro* study under controlled chewing and brushing in an artificial mouth. Berdouses, E., *et al.*, 1185

MOVEMENT
Kinematic center, The: a reference for condylar movements. Yatabe, M., *et al.*, 1644

mRNA (*see* RNA, MESSENGER)

MUCINS
Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular

gland cells. Fleming, N. and Mellow, L., 1295
Binding of human high-molecular-weight salivary mucins (MG1) to *Hemophilus parainfluenzae*. Veerman, E.C.I., *et al.*, 351

MUCOUS MEMBRANE

Hypertriglyceridemia associated with tumor necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

MURAMIDASE

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

MUSCLE CONTRACTION

Effect of maturation on ^{31}P magnetic resonance spectroscopy of the rabbit masseter muscle. Chang, C., *et al.*, 1861
Weakness in mouse masticatory muscles by repetitive contractions with forced lengthening. Hutchins, M.O., *et al.*, 642

MUSCLE FIBERS

Effect of maturation on ^{31}P magnetic resonance spectroscopy of the rabbit masseter muscle. Chang, C., *et al.*, 1861

NATIONAL INSTITUTE OF DENTAL RESEARCH

NIDR—a view from the inside. Löe, H., 630

NECROSIS

Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513

NEISSERIA

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

NERVE ENDINGS

Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

NERVE FIBERS

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634
Re-innervation of the tongue and salivary glands after lingual nerve repair by stretch, sural nerve graft or frozen muscle graft, The. Smith, K.G. and Robinson, P.P., 1850

NERVE FIBERS, MYELINATED

Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310

NERVE GROWTH FACTORS

Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

NEURAL CONDUCTION

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

NEUROPEPTIDES

Effects of neuropeptides (calcitonin gene-related peptide and substance P) on cultured human pulp cells, The. Trantor, I.R., *et al.*, 1066

NEUTROPHILS

Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

NICKEL

Cellular response to metallic ions released from nickel-chromium dental alloys. Bumgardner, J.D. and Lucas, L.C., 1521
Factors affecting the adherence energy of experimental resin cements bonded in a nickel-chromium alloy. Asmussen, E., *et al.*, 715

NIDR (see National Institute of Dental Research)

NITRIC OXIDE

Evidence for the role of nitric oxide in the circulation of the dental pulp. Lohinai, Z., *et al.*, 1501

NUCLEAR MAGNETIC RESONANCE

Effect of maturation on ^{31}P magnetic resonance spectroscopy of the rabbit masseter muscle. Chang, C., *et al.*, 1861
Phosphorus magnetic resonance spectroscopy of human masseter muscle. Plesh, O., *et al.*, 338

OCTACALCIUM

High-resolution and analytical electron microscopic studies of new crystals induced by a bioactive ceramic (diopside). Miake, Y., *et al.*, 1756
Reversible structural changes of octacalcium phosphate and labile acid phosphate. Suzuki, O., *et al.*, 1764

ODONTOBLASTS

Characterization of cellular responses involved in reparative dentinogenesis in rat molars. D'Souza, R.N., *et al.*, 702

ODONTOGENESIS

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636
Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226

ODORS

Self-estimation of oral malodor. Rosenberg, M., *et al.*, 1577

OPTICS

Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086

ORAL CAVITY (see Mouth)

ORAL HEALTH

Relation between clinical dental status and subjective impacts on daily living. Leao, A. and Sheiham, A., 1408

ORAL MUCOSA

Hypertriglyceridemia associated with tumor necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

ORAL SUBMUCOUS FIBROSIS

Collagen biosynthesis in human oral submucous fibrosis fibroblast cultures. Kuo, M.Y.P., *et al.*, 1783

ORTHODONTICS, CORRECTIVE

Follow-up study of radiographic findings in the mandibular condyles of orthodontically treated patients and associations with TMD, A. Peltola, J.S., *et al.*, 1571

ORTHODONTICS, PREVENTIVE

Guest editorial: prevention and early treatment in orthodontics: a perspective. Varrela J. and Alanen P., 1436

OSSEOINTEGRATION

Guest editorial: implant hardware—science or commodity development? Henry, P.J., 301

OSTEOBLASTS

LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802
Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

OSTEOCALCIN

Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

OSTEOGENESIS

Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

OVALBUMIN

Development and histologic characterization of an animal model of antigen-induced arthritis of the juvenile rabbit temporomandibular joint. Kapila, S., *et al.*, 1870

PAIN

Inhibition of prostaglandin E_2 and interleukin 1-α production by low-power laser irradiation in stretched human periodontal ligament cells. Shimizu, N., *et al.*, 1382

PALATAL MUSCLES

Effect of lung inflation on levator veli palatini muscle activity. Koizumi, H., *et al.*, 1235

PANCREATOPEPTIDASE

Localization of active and inactive elastase, alpha-1-proteinase inhibitor, and

alpha-2-macroglobulin in human gingiva. Kennett, C.N., *et al.*, 667

PARASYMPATHETIC NERVOUS SYSTEM

Absence of parasympathetic vasodilation in cat dental pulp. Sasano, T., *et al.*, 1665

PAROTID GLAND

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444

Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040

PATHOGENICITY

Oral *Candida*: clearance, colonization, or candidiasis? Cannon, R.D., *et al.*, 1152

PELLICLE

Characterization of glucosyltransferaseB, GtfC, and GtfD in solution and on the surface of hydroxyapatite. Venkitaraman, A.R., *et al.*, 1695

Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040

Salivary amylase promotes adhesion of oral streptococci to hydroxyapatite. Scannapieco, F.A., *et al.*, 1360

PEPTIDE HYDROLASES

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

PEPTIDE PEPTIDOHYDROLASES

Characterization and identification of proteinases and proteinase inhibitors synthesized by temporomandibular joint disc cells. Kapila, A., *et al.*, 1328

PEPTOSTREPTOCOCCUS MICROS

Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789

PERI-IMPLANTITIS (*see* Inflammation)

PERIAPICAL PERIODONTITIS

Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323

PERIODONTAL DISEASES

Definitive *vs.* exploratory periodontal trials: a survey of published studies. Hujoel, P.P., 1453

Efficacy of the FDA selection criteria for radiographic assessment of the periodontium. Atchison, K.A., *et al.*, 1424

Multiple-outcomes meta-analysis of treatments for periodontal disease. Berkey, C.S., *et al.*, 1030

Simultaneous detection of Actinobacillus actinomycetemcomitans and Porphyromonas gingivalis by a rapid PCR method. Wahlfors, J., *et al.*, 1796

Volatile fatty acids, metabolic by-products of periodontopathic bacteria, inhibit lymphocyte proliferation and cytokine production. Kurita-Ochiai, T., *et al.*, 1367

PERIODONTAL LIGAMENT

Alkaline phosphatase activity in the periodontal ligament and gingiva of the rat molar: its relation to cementum formation. Groeneveld, M.C., *et al.*, 1374

Formation of differentiated tissues *in vivo* by periodontal cell populations cultured *in vitro*. Lang, H., *et al.*, 1219

Identification of bone-type alkaline phosphatase mRNA from human periodontal ligament cells. Goseki, M., *et al.*, 319

Inhibition of prostaglandin E_2 and interleukin 1-α production by low-power laser irradiation in stretched human periodontal ligament cells. Shimizu, N., *et al.*, 1382

Isolation, purification, and partial characterization of an autocrine periodontal ligament cell chemotactic factor. Ye, J., *et al.*, 1303

LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802

Quantitative study on the myelinated fiber innervation of the periodontal ligament of cat canine teeth, A. Long, A., *et al.*, 1310

Temporal and spatial expressions of type XII collagen in the remodeling periodontal ligament during experimental tooth movement. Karimbux, N.Y. and Nishimura, I., 313

PERIODONTITIS

Antigen specificity of serum antibody in A. *actinomycetemcomitans*-infected periodontitis patients. Ebersole, J.L., *et al.*, 658

Critical issues in periodontal research. Page, R.C., 1118*

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459

Localization of active and inactive elastase, alpha-1-proteinase inhibitor, and alpha-2-macroglobulin in human gingiva. Kennett, C.N., *et al.*, 667

Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789

Salivary PAF levels correlate with the severity of periodontal inflammation. Garito, M.L., *et al.*, 1048

Statistical issues in periodontal research. DeRouen, T.A., *et al.*, 1731

PERIODONTIUM

Efficacy of the FDA selection criteria for radiographic assessment of the periodontium. Atchison, K.A., *et al.*, 1424

PEROXIDES

Acute toxicity of carbamide peroxide and a commercially available tooth-bleaching agent in rats. Dahl, J.E. and Becher, R., 710

PERSONALITY

Prevalence of dental anxiety in children from low-income families and its relationship to personality traits, The. Raadal, M., *et al.*, 1439

pH. (*see* Hydrogen-Ion Concentration).

PHENYTOIN

Phenytoin at micromolar concentrations is an osteogenic agent for human-mandible-derived bone cells , *in vitro*. Nakade, O., *et al.*, 331

PHOSPHATES

Phosphorus magnetic resonance spectroscopy of human masseter muscle. Plesh, O., *et al.*, 338

PHOSPHOPEPTIDES

Anticariogenicity of calcium phosphate complexes of tryptic casein phosphopeptides in the rat. Reynolds, E.C., *et al.*, 1272

PHOSPHOPROTEINS

Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837

PHOSPHORYLATION

Functional comparison of native and recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837

PILOCARPINE

Pharmacokinetic and pharmacodynamic study of intravenous pilocarpine in humans, A. Tanzer, J.M., *et al.*, 1845

PIT AND FISSURE SEALANTS

Longitudinal evaluation of fissure sealants applied in dental practices, A. Ismail, A.I. and Gagnon, P., 1583

PLATELET ACTIVATING FACTOR

Salivary PAF levels correlate with the severity of periodontal inflammation. Garito, M.L., *et al.*, 1048

POLITICS

Mouth that roared: effective advocacy in the nineties and beyond, The. Barnett, M.L., 1148

POLYGLUCOSES (*see* Glucans)

POLYMERASE CHAIN REACTION

Simultaneous detection of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by a rapid PCR method. Wahlfors, J., *et al.*, 1796

Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (*erratum*)

POLYMERIZATION

Preparation and characterization of cyclopolymerizable resin formulations. Stansbury, J.W., *et al.*, 1110

POLYMORPHONUCLEAR LEUKOCYTES. (*see* Neutrophils).

POPULATION

Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318

PORCELAIN (*see* Dental Porcelain)

PORCELAIN-METAL ALLOYS

Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

PORPHYROMONAS GINGIVALIS

Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789

Simultaneous detection of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by a rapid PCR method. Wahlfors, J., *et al.*, 1796

POTASSIUM

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

POTASSIUM CHANNELS

Properties of Ca^{2+}-dependent K^+ channels of human gingival fibroblasts. Takahashi, A., *et al.*, 1507

POVERTY

Prevalence of dental anxiety in children from low-income families and its relationship to personality traits, The. Raadal, M., *et al.*, 1439

PREMOLAR

Computer-assisted reconstruction of enamel fissures and carious lesions of human premolars. Hirano, Y. and Aoba, T., 1200

PREVENTIVE DENTISTRY

Guest editorial: aging—a global issue, 724

Guest editorial: prevention and early treatment in orthodontics: a perspective. Varrela J. and Alanen P., 1436

Longitudinal evaluation of fissure sealants applied in dental practices, A. Ismail, A.I. and Gagnon, P., 1583

Sumter Smith Arnim, DDS, PhD (1904-1990): a pioneer in preventive dentistry. Christen, A.G., 1630

PREVOTELLA

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789

PRIVATE SECTOR

Guest editorial: dental science: the importance of maintaining balanced research programs. Marjenhoff, W.A., 1724

PROLINE

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

PROSTAGLANDIN E_2

Inhibition of prostaglandin E_2 and interleukin 1-α production by low-power laser irradiation in stretched human periodontal ligament cells. Shimizu, N., *et al.*, 1382

PROTEASE INHIBITORS

Characterization and identification of proteinases and proteinase inhibitors synthesized by temporomandibular joint disc cells. Kapila, A., *et al.*, 1328

Localization of active and inactive elastase, alpha-1-proteinase inhibitor, and alpha-2-macroglobulin in human gingiva. Kennett, C.N., *et al.*, 667

PROTEIN-BIOSYNTHESIS

Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular gland cells. Fleming, N. and Mellow, L., 1295

PROTEIN DEFICIENCY

Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444

PROTEIN-GLUTAMINE GAMMA-GLUTAMYLTRANSFERASE

Expression of transglutaminase C during the prenatal development of human submandibular glands. Lee, S.K., 1812

PROTEOGLYCANS

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

PROTEOLYTIC ENZYMES (*see* Peptide Hydrolases)

PROTON PROBE ANALYSIS

Distribution of fluoride in carious human enamel, The. Pearce, E.I.F., *et al.*, 1775

PTERYGOID MUSCLES

Architecture of the human pterygoid muscles. van Eijden, T.M.G.J., *et al.*, 1489

PULP CHAMBER (*see* Dental Pulp Cavity)

QUALITY OF LIFE

Relation between clinical dental status and subjective impacts on daily living. Leao, A. and Sheiham, A., 1408

RABBITS

Characterization and identification of proteinases and proteinase inhibitors synthesized by temporomandibular joint disc cells. Kapila, A., *et al.*, 1328

Development and histologic characterization of an animal model of antigen-induced arthritis of the juvenile rabbit temporomandibular joint. Kapila, S., *et al.*, 1870

Effect of maturation on ^{31}P magnetic resonance spectroscopy of the rabbit masseter muscle. Chang, C., *et al.*, 1861

Function-dependent anatomical parameters of rabbit masseter motor units. Kwa, S.H.S., *et al.*, 1649

RADIOGRAPHY, DENTAL

Efficacy of the FDA selection criteria for radiographic assessment of the periodontium. Atchison, K.A., *et al.*, 1424

Follow-up study of radiographic findings in the mandibular condyles of orthodontically treated patients and associations with TMD, A. Peltola, J.S., *et al.*, 1571

RANDOMIZED CONTROLLED TRIALS

Definitive *vs.* exploratory periodontal trials: a survey of published studies. Hujoel, P.P., 1453

RATS

Acute toxicity of carbamide peroxide and a commercially available tooth-bleaching agent in rats. Dahl, J.E. and Becher, R., 710

Alkaline phosphatase activity in the periodontal ligament and gingiva of the rat molar: its relation to cementum formation. Groeneveld, M.C., *et al.*, 1374

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

Anticariogenicity of calcium phosphate complexes of tryptic casein phosphopeptides in the rat. Reynolds, E.C., *et al.*, 1272

Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular gland cells. Fleming, N. and Mellow, L., 1295

Characterization of cellular responses involved in reparative dentinogenesis in rat molars. D'Souza, R.N., *et al.*, 702

Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307

Effect of aging on animal response to chronic fluoride exposure. Dunipace, A.J., *et al.*, 358

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

Effects of dopamine on adenylyl cyclase activity and amylase secretion in rat parotid tissue. Hatta, S., *et al.*, 1289

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444

Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162

Evidence that high-sucrose diet reduces dentin formation and disturbs mineralization in rat molars. Hietala, E.-L. and Larmas, M., 1899
Fluoride reduces bone strength in older rats. Turner, C.H., *et al.*, 1475
Mineral element analysis of carious and sound rat dentin by electron probe microanalyzer combined with back-scattered electron image. Tjäderhane, L., *et al.*, 1770
Problems associated with estimation of net calcium uptake during enamel formation using ^{45}Ca. Moran, R.A., *et al.*, 698
Reduction of infection-stimulated periapical bone resorption by the biological response modifier PGG glucan. Stashenko, P., *et al.*, 323
Response of L-929 fibroblasts, human gingival fibroblasts, and human tissue mast cells to various metal cations. Schedle, A., *et al.*, 1513
Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

RECEPTORS, SENSORY

Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

REMINERALIZATION (*see* Tooth Remineralization)

REPLANTATION

Formation of differentiated tissues *in vivo* by periodontal cell populations cultured *in vitro*. Lang, H., *et al.*, 1219

RESEARCH

Critical issues in periodontal research. Page, R.C., 1118*
Discovering Canada's oral tradition: dental research in the second half of the 20th century. Ellen, R.P., 1726, 1822
Discussion summary: critical issues in dental clinical research. Fischman, S.L., 1144*
Ethical issues in sponsored clinical research. Barnett, M.L., 1129*
Guest editorial: real writers *vs.* listed authors: an ethical problem. Lazar, R., 1244
Guest editorial: the three rules of life: some modest advice for those embarking on a career in dental research. Barnett, M.L., 1628
Guest editorial: why is biomedical research like a washing machine?: a question whose time has come. Barnett, M.L., 1340
Mouth that roared: effective advocacy in the nineties and beyond, The. Barnett, M.L., 1148
NIDR—a view from the inside. Löe, H., 630
Preface: critical issues in dental clinical research. Fischman, S.L., 1117*
Recruitment issues: errors of omission in dental research. Weinstein, P., *et al.*, 1028
Some reflections on the influence of Neil Jenkins on dental education and research. Dawes, C., 1346
Validity of diagnostic and monitoring tests used for temporomandibular disorders. Lund, J.P., *et al.*, 1133*

RESEARCH DESIGN

Statistical issues in periodontal research. DeRouen, T.A., *et al.*, 1731

RESEARCH SUPPORT

Guest editorial: dental science: the importance of maintaining balanced research programs. Marjenhoff, W.A., 1724

RESIN-BONDED BRIDGES (*see* Denture, Partial, Fixed, Resin-Bonded)

RESIN COMPOSITES (*see* Composites)

RESINS

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369
Effects of cross-linking agents on some properties of HEMA-based resins, The. Arima, T., *et al.*, 1597
Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162
Factors affecting the adherence energy of experimental resin cements bonded in a nickel-chromium alloy. Asmussen, E., *et al.*, 715
Fracture toughness of experimental dental composites aged in ethanol. Ferracane, J.L. and Berge, H.X., 1418
Preparation and characterization of cyclopolymerizable resin formulations. Stansbury, J.W., *et al.*, 1110
Tensile properties of resin-infiltrated demineralized human dentin. Sano, H., *et al.*, 1093
Variability in microleakage observed in a total-etch wet-bonding technique under different handling conditions. Tay, E.R., *et al.*, 1168

RNA, MESSENGER

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880
Bovine enamel organ cells express tissue non-specific alkaline phosphatase mRNA. Yuan, Z.A., *et al.*, 1886
Expression of basement membrane type IV collagen and type IV collagenases (MMP-2 and MMP-9) in human fetal teeth. Heikinheimo, K. and Salo, T., 1226
Identification of bone-type alkaline phosphatase mRNA from human periodontal ligament cells. Goseki, M., *et al.*, 319
Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (*erratum*)

RNA SPLICING

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880

ROOT PLANING

Full- *vs.* partial-mouth disinfection in the treatment of periodontal infections: short-term clinical and microbiological observations. Quirynen, M., *et al.*, 1459

ROOT SCALING (*see* Dental scaling)

SALIVA

Association of free arginine and lysine concentrations in human parotid saliva with caries experience. VanWuyckhuyse, B.C., *et al.*, 686
Binding of human high-molecular-weight salivary mucins (MG1) to *Hemophilus parainfluenzae*. Veerman, E.C.I., *et al.*, 351
Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482
Duration of dentinal tubule occlusion formed by calcium phosphate precipitation method: in vitro evaluation using synthetic saliva. Suge, T., *et al.*, 1709
Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444
Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040
Quantifying the strength of bacterial adhesive interactions with salivary glycoproteins. Prakobphol, A., *et al.*, 1212
Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826
Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280
Salivary amylase promotes adhesion of oral streptococci to hydroxyapatite. Scannapieco, F.A., *et al.*, 1360
Salivary levels of suspected periodontal pathogens in relation to periodontal status and treatment. von Troil-Lindén, B., *et al.*, 1789
Salivary PAF levels correlate with the severity of periodontal inflammation. Garito, M.L., *et al.*, 1048

SALIVARY GLANDS

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345
Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444
Re-innervation of the tongue and salivary glands after lingual nerve repair by stretch, sural nerve graft or frozen muscle graft, The. Smith, K.G. and Robinson, P.P., 1850

SALIVARY GLANDS, PAROTID (*see* Parotid Gland)

SALIVARY GLANDS, SUBMANDIBULAR (*see* Submandibular Gland)

SALIVARY PROTEINS

EP-GP and the lipocalin VEGh, two different human salivary 20-kDa proteins. Schenkels, L.C.P.M., *et al.*, 1543
Functional comparison of native and

recombinant human salivary histatin 1. Driscoll, J., *et al.*, 1837
Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

SALIVATION

Pharmacokinetic and pharmacodynamic study of intravenous pilocarpine in humans, A. Tanzer, J.M., *et al.*, 1845

SARCOMERES

Architecture of the human pterygoid muscles. van Eijden, T.M.G.J., *et al.*, 1489

SCIENTIFIC MISCONDUCT

Ethical issues in sponsored clinical research. Barnett, M.L., 1129*

SEALANTS (*see* Pit and Fissure Sealants)

SELF-ASSESSMENT (PSYCHOLOGY)

Self-estimation of oral malodor. Rosenberg, M., *et al.*, 1577

SEQUENCE ANALYSIS, DNA

Alternative splicing of amelogenin mRNA from rat incisor ameloblasts. Li, R., *et al.*, 1880
Bovine enamel organ cells express tissue non-specific alkaline phosphatase mRNA. Yuan, Z.A., *et al.*, 1886
Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307

SEX

Contributions of facial morphology, age, and gender to EMG activity under biting and resting conditions: a canonical correlation analysis. Fogle, L.L. and Glaros, A.G., 1496
Site-specificity of supragingival calculus deposition on the lingual surfaces of the six permanent lower anterior teeth in humans and the effects of age, sex, gum-chewing habits, and the time since the last prophylaxis on calculus scores, The. Macpherson, L.M.D., *et al.*, 1715

SHEAR BOND STRENGTH

Shear *vs.* tensile bond strength of resin composite bonded to ceramic. Della Bona, A. and van Noort, R., 1591

SIALOGLYCOPROTEINS

Characterization of cellular responses involved in reparative dentinogenesis in rat molars. D'Souza, R.N., *et al.*, 702

SIGNAL TRANSDUCTION

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

SISTER CHROMATID EXCHANGE

Long-term exposure to fluoride in drinking water and sister chromatid exchange frequency in human blood lymphocytes. Li, Y., *et al.*, 1468

SJÖGREN'S SYNDROME

Pharmacokinetic and pharmacodynamic study of intravenous pilocarpine in humans, A. Tanzer, J.M., *et al.*, 1845

SOCIAL CLASS

Prevalence of dental anxiety in children from low-income families and its relationship to personality traits, The. Raadal, M., *et al.*, 1439
Relation between clinical dental status and subjective impacts on daily living. Leao, A. and Sheiham, A., 1408

SOLVENTS

Fracture toughness of experimental dental composites aged in ethanol. Ferracane, J.L. and Berge, H.X., 1418

SOMATOTROPIN

Effect of growth hormone on the distribution of decorin and biglycan during odontogenesis in the rat incisor. Zhang, C.Z., *et al.*, 1636

SORBITOL

Xylitol chewing gums and caries rates: a 40-month cohort study. Mäkinen, K.K., *et al.*, 1904

SPECIALTIES, DENTAL

Guest editorial: dentin and pulp: endodontics or operative dentistry? Mjör, I.A., 1535

SPECTRUM ANALYSIS

Scanning transmission electron microscopy/energy-dispersive spectroscopy analysis of the dentin adhesive interface using a labeled 2-hydroxyethylmethacrylate analogue. Eick, J.D., *et al.*, 1246

SPINAL NERVES

Effects of potassium ions on action potential conduction in A- and C-fibers of rat spinal nerves. Peacock, J.M. and Orchardson, R., 634

STAINS AND STAINING

Marginal ditching and staining as a predictor of secondary caries around amalgam restorations: a clinical and microbiological study. Kidd, E.A.M., *et al.*, 1206

STATHERIN

Characterization of low-molecular-weight peptides in human parotid saliva. Perinpanayagam, H.E.R., *et al.*, 345

STATISTICAL MODELS (*see* Models, Statistical)

STATISTICS

Statistical issues in periodontal research. DeRouen, T.A., *et al.*, 1731

STREPTOCOCCUS

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607
Salivary amylase promotes adhesion of oral streptococci to hydroxyapatite. Scannapieco, F.A., *et al.*, 1360

STREPTOCOCCUS GORDONII

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

STREPTOCOCCUS MUTANS

Characterization of glucosyltransferaseB, GtfC, and GtfD in solution and on the surface of hydroxyapatite. Venkitaraman, A.R., *et al.*, 1695
Dental caries is a transmissible infectious disease: the Keyes and Fitzgerald revolution. Tanzer, J.M., 1536
Effect of fluorhydroxyapatite-derived fluoride on acid production by streptococci, The. Guha-Chowdhury, N., *et al.*, 1618
Effect of sucrose monolaurate on acid production, levels of glycolytic intermediates, and enzyme activities on *Streptococcus mutans* NCTC 10449. Iwami, Y., *et al.*, 1613
Fidelity of initial acquisition of mutans streptococci by infants from their mothers, The. Li, Y. and Caufield, P.W., 681
Monoclonal antibodies against a high-molecular-weight agglutinin block adherence to experimental pellicles on hydroxyapatite and aggregation of *Streptococcus mutans*. Carlén, A. and Olsson, J., 1040

STREPTOCOCCUS ORALIS

Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

STREPTOCOCCUS SANGUIS

Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607
Saliva protein binding to layers of oral streptococci *in vitro* and *in vivo*. Rudney, J.D., *et al.*, 1280

STRESS, PSYCHOLOGICAL

Urinary catecholamine levels in children with and without dental caries. Vanderas, A.P., *et al.*, 1671

STRESS ANALYSIS, DENTAL (*see* Dental Stress Analysis)

STUDY DESIGN

Statistical issues in periodontal research. DeRouen, T.A., *et al.*, 1731

SUBMANDIBULAR GLAND

Arachidonic acid stimulates intracellular calcium mobilization and regulates protein synthesis, ATP levels, and mucin secretion in submandibular gland cells. Fleming, N. and Mellow, L., 1295
Expression of transglutaminase C during the prenatal development of human submandibular glands. Lee, S.K., 1812

SUBSTANCE P

Effects of neuropeptides (calcitonin gene-related peptide and substance P) on cultured human pulp cells, The. Trantor, I.R., *et al.*, 1066

SUCROSE

Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482
Effect of sucrose monolaurate on acid

production, levels of glycolytic intermediates, and enzyme activities on Streptococcus mutans NCTC 10449. Iwami, Y., *et al.*, 1613
Evidence that high-sucrose diet reduces dentin formation and disturbs mineralization in rat molars. Hietala, E.-L. and Larmas, M., 1899
Xylitol chewing gums and caries rates: a 40-month cohort study. Mäkinen, K.K., *et al.*, 1904

SUGAR SUBSTITUTES (*see* Sweetening agents)

SURAL NERVE
Re-innervation of the tongue and salivary glands after lingual nerve repair by stretch, sural nerve graft or frozen muscle graft, The. Smith, K.G. and Robinson, P.P., 1850

SWEETENING AGENTS
Computer modeling of the effects of chewing sugar-free and sucrose-containing gums on the pH changes in dental plaque associated with a cariogenic challenge of different intra-oral sites. Dibdin, G.H., *et al.*, 1482

SYNOVIAL MEMBRANE
Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

T-LYMPHOCYTES
Effects of unpolymerized resin components on the function of accessory cells derived from the rat incisor pulp. Jontell, M., *et al.*, 1162
Volatile fatty acids, metabolic by-products of periodontopathic bacteria, inhibit lymphocyte proliferation and cytokine production. Kurita-Ochiai, T., *et al.*, 1367

TECHNOLOGY ASSESSMENT, BIOMEDICAL
Guest editorial: The assessment of new biotechnologies: would the world be different if Napoleon had received recombinant growth hormone? Barnett, M.L., 1820

TEGDMA (*see* Triethylene Glycol Dimethacrylate)

TEMPORAL MUSCLE
Electromyographic heterogeneity in the human temporalis and masseter muscles during static biting, open/close excursions, and chewing. Blanksma, N.G. and Eijden, T.M.G.J., 1318

TEMPOROMANDIBULAR JOINT
Biomechanical analysis of jaw-closing movements. Koolstra, J.H. and van Eijden, T.M.G.J., 1564
Characterization and identification of proteinases and proteinase inhibitors synthesized by temporomandibular joint disc cells. Kapila, A., *et al.*, 1328
Development and histologic characterization of an animal model of antigen-induced arthritis of the juvenile rabbit temporomandibular joint. Kapila, S., *et al.*, 1870
Follow-up study of radiographic findings in the mandibular condyles of orthodontically treated patients and associations with TMD, A. Peltola, J.S., *et al.*, 1571
Jaw pain prevalence among French-speaking Canadians in Québec and related symptoms of temporomandibular disorders. Goulet, J.-P., *et al.*, 1738
Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

TEMPOROMANDIBULAR JOINT SYNDROME
Validity of diagnostic and monitoring tests used for temporomandibular disorders. Lund, J.P., *et al.*, 1133*

TENSILE STRENGTH
Analysis of the results of a laboratory test on resin composite cements for resin-bonded bridges. Hoppenbrouwers, P.M.M., *et al.*, 1833
Shear *vs.* tensile bond strength of resin composite bonded to ceramic. Della Bona, A. and van Noort, R., 1591
Tensile bond strength and SEM evaluation of caries-affected dentin using dentin adhesives. Nakajima, M., *et al.*, 1679
Tensile properties of resin-infiltrated demineralized human dentin. Sano, H., *et al.*, 1093
Tensile strength of thin resin composite layers as a function of layer thickness. Alster, D., *et al.*, 1745

THERMAL CONDUCTIVITY
Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086

TITANIUM
Bacterial colonization on titanium, hydroxyapatite and amalgam surfaces *in vivo*. Leonhart, Å., *et al.*, 1607

TONGUE
Re-innervation of the tongue and salivary glands after lingual nerve repair by stretch, sural nerve graft or frozen muscle graft, The. Smith, K.G. and Robinson, P.P., 1850

TOOTH
Compilation of partial sequences of randomly selected cDNA clones from the rat incisor, A. Matsuki, Y., *et al.*, 307
Genetic covariance structure of incisor crown size in twins. Dempsey, P.J., *et al.*, 1389
HeNe-laser light scattering by human dental enamel. Zijp, J.R., *et al.*, 1891
Light deposition in dental hard tissue and simulated thermal response. Seka, W., *et al.*, 1086
Tooth color and reflectance as related to light scattering and enamel hardness. ten Bosch, J.J. and Coops, J.C., 374

TOOTH ABRASION
Mercury vaporization from amalgams with varied alloy compositions. Ferracane, J.L., *et al.*, 1414

TOOTH BLEACHING
Acute toxicity of carbamide peroxide and a commercially available tooth-bleaching agent in rats. Dahl, J.E. and Becher, R., 710

TOOTH DEMINERALIZATION
Mineral distribution and dimensional changes in human dentin during demineralization. Kinney, J.H., *et al.*, 1179
Tensile properties of resin-infiltrated demineralized human dentin. Sano, H., *et al.*, 1093

TOOTH DISCOLORATION
Marginal ditching and staining as a predictor of secondary caries around amalgam restorations: a clinical and microbiological study. Kidd, E.A.M., *et al.*, 1206

TOOTH ERUPTION
Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303
Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (*erratum*)

TOOTH LOSS
Three-year tooth loss among black and white older adults in North Carolina. Drake, C.W., *et al.*, 675

TOOTH MOVEMENT, MINOR
Inhibition of prostaglandin E_2 and interleukin 1-α production by low-power laser irradiation in stretched human periodontal ligament cells. Shimizu, N., *et al.*, 1382
Temporal and spatial expressions of type XII collagen in the remodeling periodontal ligament during experimental tooth movement. Karimbux, N.Y. and Nishimura, I., 313

TOOTH REMINERALIZATION
Hypermineralization of dentinal lesions adjacent to glass-ionomer cement restorations. ten Cate, J.M. and van Duinen, R.N.B., 1266
Lipoteichoic acid inhibits remineralization of artificial subsurface lesions and surface-softened enamel. Damen, J.J.M., *et al.*, 1689

TOOTH SUPPORTING STRUCTURES (*see* Periodontium)

TOOTHBRUSHING
Mercury release from dental amalgams: an *in vitro* study under controlled chewing and brushing in an artificial mouth. Berdouses, E., *et al.*, 1185

TRANSCRIPTION, GENETIC
Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (*erratum*)

TRANSFORMING GROWTH FACTOR ALPHA
Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

TRANSFORMING GROWTH FACTOR BETA

Molecular biology of initiation of tooth eruption, The. Wise, G.E. and Lin, F., 303

Saliva and growth factors: the fountain of youth resides in us all. Zelles, T., *et al.*, 1826

TRANSGLUTAMINASE

Expression of transglutaminase C during the prenatal development of human submandibular glands. Lee, S.K., 1812

TRANSLATION, GENETIC

Transcription and translation of CSF-1 in the dental follicle. Wise, G.E., *et al.*, 1551, 1721 (*erratum*)

TRIETHYLENE GLYCOL DIMETHACRYLATE

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

Effect of hydrostatic pressure on the diffusion of monomers through dentin *in vitro*. Gerzina, T.M. and Hume, W.R., 369

TRIGEMINAL NERVE

Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

TUMOR NECROSIS FACTOR

Differential expression of IL-1α, TNF-β, IL-6, and IL-8 in human monocytes in response to lipopolysaccharides from different microbes. Agarwal, S., *et al.*, 1057

Hypertriglyceridemia associated with tumor necrosis factor-α in hamster cheek-pouch carcinogenesis. Nakajima, J., *et al.*, 1558

LPS responsiveness in periodontal ligament cells is regulated by tumor necrosis factor-α. Quintero, J.C., *et al.*, 1802

TUNGSTEN COMPOUNDS

Influence of bur blade concentricity on high-speed tooth-cutting interactions: a video-rate confocal microscopic study, The. Watson, T.F. and Cook, R.J., 1749

TWINS

Genetic covariance structure of incisor crown size in twins. Dempsey, P.J., *et al.*, 1389

UDMA (*see* Urethane Dimethacrylate)

UNITED STATES FOOD AND DRUG ADMINISTRATION

Efficacy of the FDA selection criteria for radiographic assessment of the periodontium. Atchison, K.A., *et al.*, 1424

URETHANE DIMETHACRYLATE

Cytotoxic interactive effects of dentin bonding components on mouse fibroblasts. Ratanasathien, S., *et al.*, 1602

VASCULAR RESISTANCE

Evidence for the role of nitric oxide in the circulation of the dental pulp. Lohinai, Z., *et al.*, 1501

VASODILATION

Absence of parasympathetic vasodilation in cat dental pulp. Sasano, T., *et al.*, 1665

VON EBNER'S GLAND PROTEIN (*see* Salivary Proteins)

WATER

Infants' fluoride intake from drinking water alone, and from water added to formula, beverages, and food. Levy, S.M., *et al.*, 1399

Long-term exposure to fluoride in drinking water and sister chromatid exchange frequency in human blood lymphocytes. Li, Y., *et al.*, 1468

WATER FLUORIDATION (*see* Fluoridation)

WHEAT GERM AGGLUTININS

Topographical and ultrastructural study of sensory trigeminal nerve endings in the rat temporomandibular joint as demonstrated by anterograde transport of wheat germ agglutinin-horseradish peroxidase (WGA-HRP), A. Kido, M.A., *et al.*, 1353

X-RAY DIFFRACTION

Isothermal anneal effect on leucite content in dental porcelains. Mackert, J.R., *et al.*, 1259

XEROSTOMIA

Pharmacokinetic and pharmacodynamic study of intravenous pilocarpine in humans, A. Tanzer, J.M., *et al.*, 1845

XYLITOL

Xylitol chewing gums and caries rates: a 40-month cohort study. Mäkinen, K.K., *et al.*, 1904

ZINC

Effects of protein deficiency and diet consistency on the parotid gland and parotid saliva of rats. Johnson, D.A., *et al.*, 1444
